BUDGET MESSAGE

DEPARTMENT Fuel Distribution

ANTICIPATED REVENUE STREAMS

Revenues consist of fuel charges to departments of Fremont County Government, Fremont County Fire Protection District, Fremont County Weed & Pest Control District, Fremont County Library, Fremont County Fair, Town of Hudson and Town of Pavillion. Charges for fuel are based on the monthly average cost of fuel plus an 18 cent per gallon surcharge to cover overhead.

EXPENDITURE TRENDS

Fuel costs are 95% of total expense. The budget is based on historical usage and fuel price forecasts provided by the U.S. Department of Energy – Energy Information Administration. Based on this information we are using \$2.14 and \$2.27 per gallon for unleaded gasoline and diesel costs respectively for the 2018 budget request.

BUDGET CHANGES FROM LAST YEAR

While diesel fuel cost is expected to increase (\$1.96 to \$2.14) unleaded fuel is expected to increase (\$2.06 to 2.27). Overall fuel costs are expected to increase from \$372 to \$409 thousand.

FIVE YEAR PLAN

DEPARTMENT Fuel Distribution

1. SERVICE PRIORITIES

Provide fuel conveniently and reliably to County personnel while **minimizing** fuel costs.

Provide easily understood accurate accounting of all fuel used providing printed reports to each department head within five business days of the end of each month.

[Billing has been completed in 9 to 17 days over the past 12 months. We have not surveyed department heads with regard to ease of understanding reports.]

2. EMPLOYEES and BENEFITS

By sharing staff with the Planning Department, the Fuel Distribution internal service fund operates with minimal staff.

3. FUNDING and REVENUE CHANGES

The price of fuel is volatile and can make very significant impact on the budget. However, since we pass on the price changes to our customers, the price changes do not affect the profitability of the fund.

[no change]

4. MAINTENANCE or SECURITY ISSUES

Maintenance and repairs of fueling equipment is infrequent but costly when it occurs. The budget includes \$8,000 to cover these costs.

The fuel equipment and software has reached the end of its expected life. The County Planner has consulted with our repair technicians. Their conclusion is that when the time comes all equipment and software will need to be updated at one time. The cost for the replacement of software and equipment will be \$150,000 to \$200,000. However, the equipment remains serviceable and there is no reason to do so at this time. The Planner estimates replace will not be necessary over the next 5 years.
