FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

Honorable Board of County Commissioners
Fremont County Courthouse
Lander, Wyoming

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, the aggregate remaining fund information, and the respective budgetary comparison for the General Fund of Fremont County, Wyoming, as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Fremont County, Wyoming's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Fremont County Solid Waste Disposal District which represents 100% of the assets, net assets and revenues of the amounts included under the heading of Component Units Solid Waste Disposal District. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for Fremont County, Wyoming, is based on the report of the other auditors.

Except as discussed in the following paragraph regarding the Fremont Solid Waste Disposal District we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of the other auditors provide a reasonable basis for our opinions.

The auditor's of the Solid Waste Control District were unable to obtain sufficient appropriate audit evidence related to the management's estimate of the closure and post closure care liability of the District stated at \$6,000,000 as of June 30, 2010, or the landfill closure costs of \$3,411,647, which is included in the decrease in net assets of the Solid Waste Control District for the year ended June 30, 2010.

In our opinion based upon on our audit and the report of the other auditors, except for the effects of such adjustments, if any, as might have been determined to be necessary had the auditors of the Solid Waste Control District been able to examine sufficient evidence regarding the estimate of its closure and post closure liability, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Fremont County, Wyoming, as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 11, 2011, on our consideration of Fremont County, Wyoming's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 11 and budgetary comparison information in the supplementary information are to be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Fremont County Wyoming's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements, are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory sections have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it

January 11, 2011

Management's Discussion and Analysis

As management of Fremont County, Wyoming, we offer readers of our financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2010.

These financial statements include not only Fremont County itself (known as the *primary government*), but also six legally separate entities for which the County is financially accountable. The discretely presented component units are comprised of: Fremont County Solid Waste Disposal District, Fremont County Weed and Pest Control District, Fremont County Fair Board, Fremont County Library Board, Fremont County Museum Board, and Fremont County Recreation Board. Financial information for these *discretely presented component units* is included in these financial statements but is reported separately from the financial information of the primary government. The following discussion will focus on the primary government. Unless stated otherwise all information pertains to the primary government alone.

Financial Highlights

As of June 30, 2010, Fremont County had \$30.8 million of cash and investments. This excludes amounts held in fiduciary funds and belonging to other entities. In addition, the County owns capital assets (property and equipment) valued at \$106.9 million, net of accumulated depreciation. This amount includes infrastructure (roads and bridges). The County had \$6.8 million of other assets, primarily property taxes receivable, and \$7.8 million of liabilities. \$4.7 million of the liabilities is deferred property tax revenue.

The assets of Fremont County exceeded liabilities by \$136.7 million (*net assets*) at the close of fiscal year 2010. Of this amount, \$16.4 million is available for the County's general obligations to citizens and creditors (*unrestricted net assets*). \$106.8 million is invested in capital assets, and the \$13.0 million remaining portion of net assets (*restricted net assets*) is restricted for specific purposes as detailed on the statement of net assets (page 12).

During fiscal 2010, Fremont County had revenues of \$31.5 million and expenses totaling \$28.9 million. The County's total net assets increased \$2.6 million (1.9%).

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Fremont County, Wyoming's basic financial statements. The County's basic financial statements include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The report also contains other supplementary information that follows the notes to the financial statements.

Government-wide financial statements - The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private sector business.

The *statement of net assets* (page 12) presents information on all of the County's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *statement of activities* (pages 13-14) presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of the cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are primarily supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, public safety, roads and bridges, sanitation, culture and recreation, health and welfare, economic development, and support services. The business-type activities of the County include an ambulance service and an economic development revolving loan fund.

In addition, a combining statement of net assets and a combining statement of activities for the non-major component units can be found at pages 71-72.

Fund financial statements - A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds - *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *current sources and uses of spendable resources*, and on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The County maintains thirty-one individual governmental funds. Information is presented separately in the governmental fund *balance sheet* and in the governmental fund *statement of revenues, expenditures and changes in fund balances* for the General Fund, Road Construction Special revenue Fund, and the Detention Facility Trust Permanent Fund. These three funds are considered to be *major funds*. Data from the other twenty-eight governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

The County adopts an annual budget for all governmental funds as required by state law. A budgetary comparison statement has been provided for the General Fund to demonstrate its compliance with the budget. A budgetary comparison schedule for the Detention Facility Trust Permanent Fund, non-major funds and all component units is also included with the other supplementary information on page 67. Budgetary comparison schedules for capital project funds are on pages 59-62.

The basic governmental fund financial statements can be found on pages 15-17 of this report.

Proprietary funds - The County maintains two types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for its ambulance service and its economic development revolving loan fund. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for a self-insured employee health benefit plan, a property and equipment internal leasing program, emergency dispatch services, unemployment benefits, an investment pool, and fuel distribution. These services are primarily included in governmental activities and to a small extent in business type activities on a pro-rata basis.

Proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail for each fund. The proprietary fund financial statements provide separate information for the Ambulance and Revolving Loan Fund. All of the internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in other supplementary information.

The basic proprietary fund financial statements can be found on pages 18-20 of this report.

Fiduciary funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the County's own programs. The basic fiduciary fund financial statements can be found on pages 21-22.

Notes to the financial statements - The notes provide additional information that is essential to understanding the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 25-47 of this report.

Other information - A schedule of Wyoming state assistance is presented on page 48. A schedule of expenditures of federal awards is presented on pages 99-100. The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented on pages 53-58 and 63-66, respectively. Also, fund financial statements for each of the six component units are presented on pages 68-94.

Government-wide Financial Analysis

Fremont County's assets exceed liabilities by a total of \$137 million (*net assets*). Assets total \$145 million with 21% of that being cash and investments, 3% property taxes receivable and 74% capital assets (property and equipment). The component units had an additional \$14.2 million of net assets. The component unit's assets (\$24.6 million) consisted of \$4.4 million (18%) cash and investments, \$3.2 million (13%) property taxes receivable and \$15.2 million (62%) capital assets. The Solid Waste Disposal District, has estimated liability of \$6.0 million for closure and post closure care costs which more than doubled from the \$2.7 reported for June 30, 2009.

Total net assets of the primary government increased \$2.6 million (1.9%) during fiscal year 2010. This is primarily due to \$3.6 million increase in cash and investments and a \$1.3 million decrease in property taxes receivable. The component units' net assets increased by \$1.0 million (7.3%) due to an increase in cash and investments held by the Solid Waste Disposal District.

Governmental activities - Governmental activities account for 97% of both total assets and net assets. Total revenues decreased \$0.7 million (2.4%) from fiscal year 2009 to 2010. Capital grants and contributions decreased \$1.4 million due primarily to the 2009 State grant pass through to Idea Inc to purchase and remodel the former Alco Building in Riverton. Federal payment in lieu of taxes decreased \$1.7 million due to an accelerated federal payment schedule resulting in two annual federal payments in fiscal year 2009. Property taxes increased \$1.6 million due to higher natural gas prices and sales and use tax increased \$1.4 million. Total expenses remained almost constant at \$27.4 million. Public safety expenses increased 1.0 million (8.6%) while Roads and Bridge expenses increased \$0.5 million (10.6%). Economic development expenses decreased \$1.2 million after the 2009 State grant pass through to Idea Inc to purchase and remodel the former Alco Building in Riverton. Health and welfare expenses dropped \$0.6 million after incurring 2009 start-up costs for the Fremont County Hospice Center.

Business-type activities - Business-type activities account for only 3% of both the County's total assets and net assets. Assets belonging to the business-type activities total \$3.9 million, of which 27% is cash and investments, 63% is capital assets, and the remainder is primarily ambulance service accounts receivable and inventory. Liabilities total \$180 thousand. Net assets total \$3.7 million with 67% invested in capital assets and 33% unrestricted. Charges for services and capital grants comprise for 72% and 22% of total revenues respectively. Comparisons to the prior year are addressed later.

Financial Analysis of the Government's Funds

Governmental funds - The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. (Refer to pages 15 and 16.) Such information is useful in assessing the County's financing requirements. In particular, *unassigned fund balance* serves as a useful measure of government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$27.8 million, up from \$23.7 million for the prior year. 48% of this total amount (\$13.4 million) constitutes *unassigned fund balance*, which is available for spending at the County's discretion. \$3.7 million (13%) is non-spendable fund balance. The remaining \$10.7 million is restricted or committed for specific purposes as reported on page 15.

The **General Fund** is the chief operating fund of the County and accounts for 76% of governmental fund revenues. Total General Fund fund balance increased 4.5% to \$14.7 million. 91% of the General Fund fund balance is unassigned and thus available for spending at the County's discretion. Of the remaining \$1.3 million fund balance, \$900 thousand is invested in inventory. As a measure of the general fund's liquidity, it is useful to compare unassigned fund balance to total expenditures and transfers out. Unassigned fund balance represents 61% of total expenditures and transfers out compared to 55% for the prior year.

Program Revenues and Expenses

Revenues by Source For the Year Ended June 30, 2010 (Million \$)

Governmental funds – (continued)

General fund revenues and other sources decreased by \$600 thousand to \$22.7 million, while expenditures and other uses decreased by \$100 thousand to \$22.0 million. Property tax revenue increased 35% (\$2.7 million) due primarily to increased natural gas valuation and an increase in the mill levy from 8.541 to 9.153 mills. Intergovernmental revenue decreased \$3.6 million including a \$1.7 million decrease in the federal payment in lieu of taxes (PILT), a \$0.7 million decrease in sales and use tax and \$0.9 million decrease in forest reserve which is now reported as a transfer from other funds.

General Fund expenditures and other uses decreased 5% (\$1.2 million). Major changes were a \$1.1 million decrease in funding major road projects from \$2.0 to \$0.9 million and a 9% (\$285 thousand) increase in the Road and Bridge operating budget. Total General Fund personnel costs increased by \$0.7 million (6%), due to increases in number of employees and their pay rates.

Major road improvements paid with General Fund money decreased substantially from \$2.0 to \$0.9 million. Major road construction projects included:

	<u>2010</u>	<u>2009</u>
Lyons Valley Road Phase II	\$ 0	\$ 756
Various other projects	871	1,251

The **Road Construction Special Revenue Fund** and the **Detention Facility Trust Permanent Fund** are both major governmental funds of Fremont. They each had \$4.1 million of fund balance. In the case of the **Detention Facility Trust Permanent Fund** \$2.8 million of that fund balances a non-spendable endowment. \$3.6 million of the Road Construction Special Revenue Fund balance is committed to Phase I of the Burma Road Project.

The **Library Capital Project Fund** was added as a major governmental fund in 2008. Having nearly completed the remodel and expansion of the Lander Library it is no longer displayed on page 15 and 16 with the major funds. However you can see the project to date revenues and expenditures on page 59. This capital project expended 6.46 million of the total budget amount of \$6.65 million through the end of 2010 fiscal year.

Proprietary funds - The **Ambulance Services'** assets (\$3.8 million) consisted of \$1.0 million of cash and investments (26%), \$2.4 million capital assets (64%) and \$0.3 million accounts receivable (7%). Current assets decreased \$154 thousand (10%) from 2009 to 2010. Capital assets increased \$1.0 million (67%) with the completion of the ambulance facility in Lander and replacement of two ambulances at a total cost of \$1.1 million.

Sources of funds were primarily charges for goods and services \$1.6 million (72%) and intergovernmental grants \$0.6 million (26%). Operating revenues increased 7% (\$102 thousand) to \$1.6 million. As a measure of liquidity, current assets exceed current liabilities by \$1.2 million.

General Fund Budgetary Highlights

The General Fund final budget anticipated an ending budgetary fund balance of \$13.8 million. The County ended the year with a \$14.6 million budgetary fund balance. The most significant causes of the \$711 thousand excess were: 1) Beginning fund balance was \$294 thousand more than anticipated. 2) Federal payment in lieu of taxes (PILT) was \$2.0 million less than anticipated due to a change in timing. 3) State sales and use tax was \$1.0 million less than anticipated. 4) Transfers from other funds were \$730 thousand more than anticipated. 5) The County received two annual distributions of PILT in fiscal year 2009. 5) Outflows including encumbrances were \$2.9 million (11%) under budget. The most significant were Road and Bridge (\$897 thousand) and contributions to the Fair (\$335 thousand).

The original appropriation (expenditure budget) was amended to allow for an increase of \$674 thousand (3%) from \$24.5 million to \$25.2 million.

Capital Assets and Debt Administration

Capital Assets - The County's investment in capital assets (property, equipment, roads, and bridges) for its governmental and business-type activities remained unchanged at \$106.8 million.

Fremont County, Wyoming
 Management's Discussion and Analysis
 June 30, 2010

The six component units' capital assets remained unchanged at \$15.2 million.

Debt Administration - With the exception of the Solid Waste Disposal District, the County has only \$115 thousand in long-term liabilities. State statutes limit the amount of debt of the County to 2% of the assessed valuation. The limit for fiscal 2010 was \$21.6 million. The Solid Waste Disposal District has \$164 thousand in long-term capital lease obligations and an estimated liability for closure and postclosure care costs estimated to be \$6.0 million.

Next Year's Budgets and Rates

The 2011 General Fund budget year anticipates a \$14.5 million beginning fund balance up \$639 thousand (5%) from the 2010 \$13.8 million actual amount. The 2011 actual beginning fund balance is \$14.7 million. General Fund anticipated revenue of \$20.3 million decreased \$4.9 million (20%). Appropriations of \$22.8 million represent a 9% (\$2.3 million) decrease over 2010 appropriation of \$25.1 million. No new general fund appropriations for road projects have been approved. However, \$3.8 million from the Road Construction Special Revenue Fund was appropriated for the Burma Road project.

Economic Factors

FREMONT COUNTY, WYOMING
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2010

Amounts reported for governmental activities in the statement of activities (page 13-14) are different because:

Net change in fund balances - total governmental funds (page 16)	\$ 4,077,962
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This amount is the difference between depreciation (\$3,036,132) and capital outlay (\$1,601,421) for the current period. The effects of internal service funds capital outlays and depreciation is included below.	(1,434,711)
The net effect of various transactions involving capital assets (i.e. sales, trade-ins and donations) is to decrease net assets. These transactions are not reflected in governmental funds.	(35,667)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(1,189,554)
Governmental funds report loan proceeds as other financing sources, and report principal payments as expenditures. However, only the interest payment is included on the statement of activities. Following is the amount by which principal payments (\$15,205) exceed loan proceeds (\$0).	15,205
Some expenses reported in the statement of activities do not require the use of current financial resources, and therefore, are not reported as expenditures in governmental funds.	(43,900)
Internal service funds are used by management to charge the costs of emergency dispatching, capital assets, and employee health and life insurance to individual funds. The net revenue of these internal service funds is reported with government activities.	<u>438,962</u>
Change in net assets of governmental activities (page 14)	<u><u>\$ 1,828,297</u></u>

FREMONT COUNTY, WYOMING
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Fremont County, Wyoming (the County) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Significant County accounting policies are described below.

A. REPORTING ENTITY

Fremont County, Wyoming, operates under a commissioner form of government and provides the various services as authorized by its charter including the following: public safety (sheriff), roads and bridges, sanitation, health and social services, culture/recreation, public improvements, planning and zoning, and general administrative services.

The legislative branch of the County government is composed of five elected Commissioners. The establishment and adoption of policy is the responsibility of the County Commissioners. In addition to the elected Commissioners, the County elects the following officials: Clerk, Treasurer, Attorney, Clerk of District Court, Sheriff, Assessor and Coroner.

The accompanying financial statements present the primary government, and its component units, for which the primary government is considered to be financially accountable. The County has no oversight responsibility for any other governmental entity since no other entities are considered to be controlled by or dependent on the County. Control or dependence is determined on the basis of budget adoption, taxing authority, funding and appointment of the respective governing board. All potential component units have been considered for possible inclusion in the reporting entity.

Discretely Presented Component Units

The component unit columns in the government-wide financial statements include the financial data of the County's component units. They are included because, if excluded, the County's financial statements would be misleading. They are reported in separate columns in the government-wide financial statements to emphasize their legal separation from the County. The following component units are included in the statements:

Fremont County Solid Waste Disposal District - The Solid Waste Disposal District has a board of nine members and was created under the authority of Wyoming Statute 18-11-101 on October 3, 1979. The District may levy up to three mills for the purpose of disposing of solid waste at several landfills located throughout the County.

Fremont County Weed and Pest Control District - The Weed and Pest Control District has a board of seven members and was created under the authority of Wyoming Statute 11-5-101 in 1972. The District can levy up to one mill for general operations in controlling noxious weeds and pests and an additional one mill for the control of leafy spurge.

Fremont County Fair Board - The Fremont County Fair Board consists of seven members who have oversight responsibility for the County Fair, which is held annually in Riverton, Wyoming.

Fremont County Library Board - The Fremont County Library Board consists of five members who have oversight responsibility for providing general library services at several locations throughout the County.

Fremont County Museum Board - The Fremont County Museum Board consists of five members who have oversight responsibility for several museums located throughout the County.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

A. REPORTING ENTITY (cont.)

Fremont County Recreation Board - The Fremont County Recreation Board consists of nine members who have oversight responsibility for recreational activities throughout the County.

The County Commissioners appoint the board members for each of these entities. Each entity is also financially dependent upon the approval of funding outlined in an annual budget submitted to the County Commissioners.

Separate audited financial statements for the Solid Waste Disposal District for the year ended June 30, 2010, may be obtained at the District office. The other component units do not issue separate financial statements.

Related Organizations

The County is responsible for appointing members to the boards of other organizations, but is not accountable for these organizations. The following related organizations are not included in the reporting entity:

- **Historic Preservation Commission** - seven member board, all of which are appointed by the County Commissioners
- **Planning Commission** - five member board, all of which are appointed by the County Commissioners
- **Wind River Visitor's Council** - ten member board, two of whom are appointed by the County Commissioners

Jointly Governed Organizations

Fremont County Association of Governments (FCAG) - This is a joint powers board consisting of the following municipalities: Fremont County, Town of Pavillion, Town of Hudson, Town of Shoshoni, Town of Dubois, City of Riverton and the City of Lander. The FCAG was created to plan, create, expand, finance and operate any or all of the projects set forth in Section 16-1-104 c., Wyoming Statutes, 1997 amended. The FCAG Board consists of the six mayors of Fremont County and one County Commissioner. The "Mission" of the FCAG is "Cooperating to Enhance Quality Public Services."

The County provides a substantial amount of support to the FCAG. The County provides as much as a 50% match on many grants. For the year ended June 30, 2010, the County paid \$362,750 to or on behalf of the FCAG.

A copy of the audited financial statements of the FCAG is available for inspection at their office.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e. the Statement of Net Assets and Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Government-wide Financial Statements

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and private-purpose trust funds financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include: (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Fund Financial Statements

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The remaining receivables have been classified as deferred revenues and will be recognized as revenue in the period of the actual receipt. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, other taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the County.

The County reports the following major governmental funds:

General Fund - The General Fund is the County's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

- **Detention Facility Trust Fund** - The Detention Facility Trust Fund is a permanent fund that accounts for resources that are legally restricted to the extent that only earnings, and not principal, may be used for maintenance of the County's detention facility.
- **Road Construction Special Revenue Fund** - The Road Construction Special Revenue Fund accounts for financial resources derived from tax revenues from the State of Wyoming for fuel taxes required to be expended on County Roads.

The County reports the following major proprietary fund:

- **Ambulance Services** - The Ambulance Services Fund is an enterprise fund that accounts for the fiscal activity of all of the County's ambulance services.

Additionally, the County reports the following fund types:

- **Special Revenue Funds** - Special Revenue Funds account for the proceeds of specific revenue sources (other than for major capital projects) that are legally restricted to expenditure for specified purposes.
- **Capital Project Funds** - Capital Project Funds account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).
- **Debt Service Fund** - The Debt Service Fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.
- **Enterprise Funds** - Enterprise Funds account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The County's enterprise funds include Ambulance Services (see above) and the Revolving Loan Fund.
- **Internal Service Funds** - Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the governmental unit, or to other governmental units, on a cost reimbursement basis. For the County, this includes dispatch services, equipment rental, unemployment insurance, employee group health insurance services, and the investment pool.
- **Private-Purpose Trust Funds and Agency Funds** - These funds account for assets which are held by the County in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. These include the agency fund, the inmate trust agency fund and the Section 125 plan trust fund. Private-purpose trust funds are accounted for in essentially the same manner as proprietary funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the GASB. Based on the accounting and reporting standards set forth in GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, the County has opted to apply only the accounting and reporting pronouncements issued by the Financial Accounting Standards Board (FASB) on or before November 30, 1989 for business-type activities and enterprise funds.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds and of the County's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The County applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

D. RECEIVABLES AND PAYABLES

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e. the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

E. INVESTMENTS

The County follows GASB Statement No. 31 (GASB 31). GASB 31 requires most investments to be reported at their fair value. Unrealized gains and losses on investments are included in the statements of revenues, expenditures and changes in fund balances for governmental fund types and in the statement of revenues, expenses and changes in fund net assets for proprietary fund types.

F. INVENTORY

Materials used by the Road and Bridge department and materials and supplies used in the Ambulance Services Fund are carried at cost as inventory and are charged to expense when consumed. Office supplies are reported as an expenditure or expense in the period purchased.

Inventory in the discretely presented component unit - Weed and Pest Control District is held for both consumption and resale and is carried at cost or estimated cost.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

G. ENCUMBRANCES

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in governmental funds. Encumbrances outstanding at year end are reported as reservations of fund balances since they do not constitute expenditures or liabilities.

H. RESTRICTED ASSETS

Certain proceeds of a County capital facilities tax, as well as certain resources set aside for bonded debt repayment, are classified as restricted assets on the government-wide financial statements and governmental funds financial statements balance sheets because their use is limited by applicable debt covenants and/or laws and regulations. The restricted assets are used to report resources set aside to: (1) provide a reserve for debt service, and (2) provide a reserve for endowment.

I. CAPITAL ASSETS

Capitalization and Valuation

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, curbs and gutters, streets and sidewalks, drainage systems, and lighting systems) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Infrastructure assets with initial costs that equal or exceed \$25,000 and useful lives greater than five years are capitalized. Expenditures for buildings and improvements having a useful life greater than five years and a value greater than \$10,000 are capitalized. Expenditures for other capital items having a useful life greater than one year and a value greater than \$1,000 are also capitalized. Certain component units utilize lower capitalization thresholds. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of business-type activities is included as part of the capitalized value of the assets constructed.

Depreciation Method and Useful Lives

Property, plant, and equipment of the primary government, as well as the component units, is depreciated using the straight-line or 150% declining balance methods over the following estimated useful lives:

Infrastructure	3-50 years
Buildings and improvements	10-90 years
Equipment	3-15 years
Vehicles	3-15 years
Office furniture	5-10 years
Computer software	5-10 years
Library collections	5 years

Capitalization of Museum Collections

Fremont County has three museums - the Pioneer Museum, the Riverton Museum and the Dubois Museum. The collections held in these museums include prehistoric and historic artifacts illustrating the 10,000+ years of human experience in central and western Wyoming. The collections include an ethnographic collection and pioneer objects. The emphasis of the collections begins with the 1860s South Pass gold rush through the World War II era. The collections include cabins, vehicles, ranching, mining and oil field equipment, household goods, weapons, business and store tools and equipment, clothing, books, photographs and more.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

I. CAPITAL ASSETS (cont.)

Capitalization of Museum Collections (cont.)

Beyond the display of artifacts, the Riverton Museum has a substantial research library that includes old newspapers, collections of original business documents, published books about local, county, state and regional history, and a subject file that includes clippings, brochures, and other documents on a wide range of local history topics.

The Dubois Museum houses archaeology exhibits about the Mountain Shoshone Indians, a replica of a wild sheep trap, and a series of ecomurals. The center also houses rocks and fossils from the area and seven historical outbuildings.

The County has not capitalized the museum collections due to the subjectivity in valuation of the items included. Also, the cost to the County to obtain the value of the items in the collections would be prohibitive. These collections, if capitalized, would be recorded in the Museum Board component unit.

J. ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS

Receivables have been reported net of the allowance for uncollectible accounts. The allowance is estimated based on prior experience. The allowances for uncollectible accounts are as follows:

Primary Government	
General Fund	\$ 51,000
Enterprise Funds	188,623
Total Primary Government	<u>\$ 239,623</u>
Component Units	
Solid Waste Disposal District	\$ 17,000
Weed and Pest Control District	9,000
Fair Board	3,000
Library Board	8,000
Museum Board	3,000
Recreation Board	2,000
Total Component Units	<u>\$ 42,000</u>
Total Reporting Entity	<u>\$ 281,623</u>

K. COMPENSATED ABSENCES

County policy permits employees to accumulate a limited amount of earned, but unused vacation and sick leave. These benefits are payable to employees upon separation from service. All leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported. The computed liability is in compliance with GASB Statement No. 16, *Accounting for Compensated Absences*.

L. CASH AND CASH EQUIVALENTS

The County considers cash and cash equivalents to consist of all cash, either on hand or in banks, including time deposits and any highly liquid debt instruments purchased with a maturity of three months or less. This definition of cash and cash equivalents is used in the statement of cash flows for proprietary fund types.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

M. FUND BALANCE

Beginning with fiscal year 2010, the County implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- Nonspendable fund balance—amounts that are not in nonspendable form (such as inventory) or are required to be maintained intact.
- Restricted fund balance—amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed fund balance—amounts constrained to specific purposes by the County itself enacted by resolution of the Board of County Commissioners. Committed fund balance cannot be used for any other purpose unless the commitment expires as set forth in the resolution, or a new Board resolution amends the commitment.
- Assigned fund balance—amounts the County intends to use for a specific purpose. Intent can be expressed by the County Commissioners or by an official or body to which the County Commissioners delegates the authority.
- Unassigned fund balance—amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The County utilizes restricted fund balances first followed by committed resources, and then assigned resources.

Beginning fund balances for the County's governmental funds have been restated to reflect the above classifications.

County Commissioners establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the County Commissioners through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

N. INTERFUND TRANSACTIONS

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers.

O. ESTIMATES

The accounting policies of Fremont County, Wyoming conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governments. Preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and related disclosures. Actual results could differ from those estimates.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

The most significant accounting estimates are as follows:

- 1) Infrastructure with an estimated net value of \$56,487,691 for the primary government and \$778,478 for the component units was recorded as of July 1, 2002.
- 2) The liability for closure and postclosure care costs increased by \$3,316,141 to \$6,000,000 during the fiscal year. See Note 12 for additional information.
- 3) Depreciation expense was estimated to be \$3,950,000 for governmental activities for the year. See Note 6 for additional information.

NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1) Prior to May 15, the County Clerk submits to the County Commissioners a proposed operating budget for the fiscal year commencing that July 1. The operating budget includes proposed expenditures and the means of financing them for the upcoming year, along with estimates for the current year and actual data for the two preceding years. The County Charter requires that the budget be submitted in summary form. In addition, more detailed line item budgets are included for administrative control. The legal level of statutory control for the detailed budget is at the department/function level.
- 2) Public hearings are conducted between the second and the third Monday in July to obtain taxpayer comments.
- 3) Within 24 hours following the public hearing, the budget is legally adopted through passage of a resolution.
- 4) The County can, after public notice and hearing, transfer budgeted amounts between departments within any fund.
- 5) Budgets for the governmental and proprietary fund types are adopted on a basis consistent with generally accepted accounting principles (GAAP), except that encumbrances are included as expenditures. The general fund expenditure classifications for GAAP and budgetary purposes differ due to classification of expenditures. Budgeted amounts are the final authorized amounts as revised during the year. The original budget for the fiscal year has been amended.
- 6) All appropriations, except for capital project funds, lapse at the end of each fiscal year.
- 7) The financial statements Budgetary Comparison Statement discloses the following budget overexpenditure:

County Coroner	\$2,580
----------------	---------

NOTE 3 - PROPERTY TAXES

All property taxes are levied at the County level on October 1. Provided the payments are timely, the tax can be paid in two equal installments on November 10 and May 10 or tax may be paid in full on December 31. Any taxes on real property that have not been received by the due date are put before the general public for a tax deed assignment sale in August following three publicly advertised notices of the date of this sale. Taxes that are not received at this assignment sale will cause the respective property to be assigned to the County.

NOTE 4 - CASH AND INVESTMENTS

Cash and investments in treasury represent deposits and investments controlled by the County Treasurer. Although the deposits and investments are pooled into various accounts at different institutions, each fund's share of the deposits and investments are accounted for. Negative cash and investments in treasury figures represent borrowings from the pool. Cash flows sufficient to reimburse the pool for the temporary borrowing are anticipated.

Other cash represents deposits and investments not controlled by the County Treasurer but rather by another elected official or a bonded treasurer of a component unit.

Investment income shown in the financial statements is comprised of interest earnings and realized and unrealized gains and losses.

Composition of the cash and investment accounts in the financial statements is as follows:

<u>Primary Government and Fiduciary Funds</u>	Cash and Investments in Treasury	Other Cash	Total
Cash on hand	\$ 141,590	62	\$ 141,652
Bank deposits	2,357,513	704,756	3,062,269
Investments	<u>33,509,919</u>	<u>0</u>	<u>33,509,919</u>
Total Cash and Investments	<u>\$ 36,009,022</u>	<u>\$ 704,818</u>	<u>\$ 36,713,840</u>

<u>Component Units</u>	Cash and Investments in Treasury	Other Cash	Total
Cash on hand	\$ 0	\$ 15,277	\$ 15,277
Bank deposits	0	2,539,023	2,539,023
Investments	286,483	1,887,489	2,173,972
Other	<u>0</u>	<u>486</u>	<u>486</u>
Total Cash and Investments	<u>\$ 286,483</u>	<u>\$ 4,442,275</u>	<u>\$ 4,715,008</u>

Bank Deposits - At year end, the carrying amount of the primary government's bank deposits was \$3,062,269 and the bank balance was \$3,835,222. Of the bank balance, \$260,531 was covered by federal depository insurance and \$3,574,690 was covered by collateral held in safekeeping by a third party trust. At year end, the carrying amount of the component units' bank deposits was \$2,539,023 the bank balance was \$2,330,317. Of the bank balance, \$884,724 was covered by federal depository insurance; \$1,445,593 was covered by collateral held in safekeeping by a third party trust.

NOTE 4 - CASH AND INVESTMENTS (cont.)

Investments

Credit Risk - Statutes authorize the County to invest in various instruments of the federal government and its agencies, savings certificates of saving and loan associations, bank certificates of deposit and investment pools and repurchase agreements that purchase allowable investments.

The County (primary government), in accordance with its internal investment policy, has elected to invest cash in excess of immediate needs in U.S. Government Securities, money market bank accounts, repurchase agreements and external investment pools.

The component units do not have formal investment policies, but invest prudently and in accordance with state statutes. As of June 30, 2010, the component units have elected to invest in bank certificates of deposit, money market bank accounts and external investment pools.

The WyoStar local government investment pool and the repurchase agreement are not rated. All other investments held by the primary government are rated AAA. In addition, one component unit has \$484 invested in State Library investment pools which are not rated.

Interest Rate Risk – As a means of limiting its exposure to fair value losses arising from rising interest rates, the County’s investment policy limits average lives of instruments to the following:

<u>Average Life</u>	<u>Maximum Investment</u>
More than one year	75%
More than five years	25%

As of June 30, 2010, the County had the following investments and average maturities:

<u>Primary Government, Component Units and Fiduciary Funds</u>	<u>Fair Value</u>	<u>Average Maturity In Years</u>		
		<u>Less Than One Year</u>	<u>One – Five Years</u>	<u>More Than Five Years</u>
<u>Investment Type</u>				
U.S. Agency Obligations	\$ 20,080,203	\$ 4,691,755	\$ 11,325,873	\$ 4,062,575
State Treasurer’s Pool	13,111,832	9,702,756	3,409,076	0
Certificates of Deposit	26,504	26,504		
Investment Pool	<u>577,863</u>	<u>577,863</u>	<u>0</u>	<u>0</u>
Total Investments	<u>\$ 33,796,402</u>	<u>\$ 14,998,878</u>	<u>\$ 14,731,949</u>	<u>\$ 4,062,575</u>

The component units are not included in the schedule above. Those entities invest only in money market accounts, bank certificates of deposit, the State Treasurer’s investment pool and the State Library investment pool.

As of June 30, 2010, the County had invested in the Wyoming State Treasurer’s Asset Reserve (WyoStar), an investment vehicle established to allow local government entities to pool surplus funds. The State Treasurer administers and enforces all State statutes governing the WyoStar. WyoStar operates similarly to a money market fund and each share is equal in value to \$1.00. WyoStar may invest in any securities allowed by statute.

NOTE 4 - CASH AND INVESTMENTS (cont.)

Concentrations Risk - The County has a policy that directs the Treasurer to diversify assets held in cash and pooled investments to minimize the risk of loss resulting from over-concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. With exception of U.S. Treasury securities and authorized pools where there are no specific limits, no more than 50% of the County's total investment portfolio will be invested in a single type of security. More than 5% of the County's investments are concentrated in the following issuers:

<u>Investment Issuer</u>	<u>Fair Value</u>	<u>Percent of Investment Portfolio</u>
Federal National Mortgage Association	\$ 8,173,541	24.185%
Federal Home Loan Mortgage Association	6,946,439	20.554%
Government National Mortgage Association	2,712,850	8.027%

A summary of cash transactions in the Agency fund for the year ended June 30, 2010 is as follows:

Collections pending distribution	\$ 188,353,643
Distribution of collections	(190,580,245)
Net change	\$ (2,226,602)
Total cash - June 30, 2009	8,044,397
Total cash - June 30, 2010	<u>\$ 5,817,795</u>
Reconciliation to balance sheet:	
Cash and investments in treasury	\$ 5,147,394
Other cash	670,401
	<u>\$ 5,817,795</u>

NOTE 5 - INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2010 is as follows:

<u>Primary Government Fund</u>	<u>Due From Other Funds</u>	<u>Due To Other Funds</u>
General Fund	\$ 120,000	\$ 13,817
Road Construction Special Revenue Fund	3,082	0
Other Governmental Funds	217	3,082
Internal Service Funds	0	120,000
Fiduciary Funds	13,600	0
Total Primary Government	<u>\$ 136,899</u>	<u>\$ 136,899</u>

The \$13,600 due to the Inmate Trust Agency Fund from the General Fund is for the overpayment of accumulated profit on sales of items to detention center inmates. The \$17,173 due from the General Fund to the Road Construction Capital Project Fund is to pay the outstanding liabilities on County road projects. The General Fund advanced \$300,000 to the Library Capital Projects Fund for completion of construction costs to be repaid with specific purpose sales tax revenues.

NOTE 5 - INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS (cont.)

Due to/from primary government and component units consist of the following:

	Due From Primary Government	Due To Component Units
Agency Fund	\$ 0	\$ 786,616
Component Units		
Solid Waste Disposal District	192,771	0
Weed and Pest Control District	120,896	0
Fair Board	358,693	0
Library Board	101,751	0
Recreation Board	<u>12,505</u>	<u>0</u>
Total Due To/From	<u>\$ 786,616</u>	<u>\$ 786,616</u>

Interfund transfers consist of the following:

Transfer From
Transfer to

General Fund	\$ 204,134	\$
Internal Service Funds		4,564
Capital Projects Road Funds		(10,729)
Other Governmental Funds		210,299

NOTE 6 - CAPITAL ASSETS (cont.)

Depreciation

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental Activities	
General Government	\$ 142,998
Public Safety	539,711
Roads and Bridges	1,950,260
Culture and Recreation	276,213
Health and Welfare	82,952
Economic Development	2,459
Support Services	41,539
Capital assets held by the County's internal service funds are charged to the various functions based on usage	<u>912,607</u>
Total Depreciation Expense - Governmental Activities	<u>\$ 3,948,739</u>
Business-type Activities	
Ambulance Services	<u>\$ 189,052</u>

NOTE 7 - CHANGES IN LONG-TERM LIABILITIES

The following is a summary of the changes in general long-term debt of the County for the year ended June 30, 2010:

Primary Government

	Balance June 30, <u>2009</u>	<u>Additions</u>	<u>Reductions</u>	Balance June 30, <u>2010</u>	Due Within <u>One Year</u>
Governmental Activities					
Compensated absences	\$ 902,000	\$ 940,000	\$ 897,000	\$ 945,000	\$ 885,600
Obligations under capital lease	70,470	0	19,033	51,437	46,437
Notes payable	17,745	0	1,172	16,573	1,201
Business-type Activities					
Compensated absences	53,000	22,000	20,000	55,000	20,000

Internal service funds predominantly serve the governmental funds. Accordingly, long term liabilities for them are included as part of the above totals for governmental activities. As of June 30, 2010, \$26,600 in compensated absences and \$15,000 in capital leases are included in the above amounts. Also, for the governmental activities, compensated absences are generally liquidated by the General Fund.

Component Units

	Balance June 30, 2009	<u>Additions</u>	<u>Reductions</u>	Balance June 30, 2010	Due Within <u>One Year</u>

	<u>\$ 357,078</u>	<u>\$ 382,194</u>	<u>\$ 374,841</u>	<u>\$ 364,431</u>	<u>\$ 364,431</u>
Obligations under capital lease					
Fair Board	\$ 20,000	\$ 0	\$ 5,000	\$ 15,000	\$ 5,000
Museum Board	3,037	0	1,889	1,148	1,148
Solid Waste Disposal District	514,934	0	210,111	307,823	144,525

Article 16, Section 5 of the Wyoming Constitution limits the amount of debt the County may create. For the year ended June 30, 2010, the debt limit was \$21.48 million.

NOTE 8 - DEFINED BENEFIT PENSION PLAN

The County contributes to the Wyoming Retirement System (WRS) pension plan, a cost-sharing multiple-employer defined benefit pension plan administered by the Wyoming Retirement System. WRS provides retirement, disability and death benefits to plan members and beneficiaries. The Wyoming Retirement Board, after approval of the Wyoming State Legislature, may amend contribution requirements to WRS. WRS issues a publicly available financial report that includes financial statements and supplementary information for WRS. That report may be obtained by writing to Wyoming Retirement Board, First Floor East - Herschler Building, 112 West 25th Street, Cheyenne, WY 82002.

The plan statutorily requires 11.25% of the participant's salary to be contributed to the plan, paid by the participant and the employer in a manner as determined by the employer. Effective September 1, 2010 this rate increased to 14.12%. Total County contributions to WRS for the years ended June 30, 2010, 2009, and 2008 were \$1,570,427 \$1,328,072, \$1,201,257 respectively.

In May 1989, the Contribution for law enforcement personnel was increased an additional 3.2%. Qualifying personnel make these contributions through payroll deduction.

NOTE 9 - LEASING ARRANGEMENTS

AS LESSEE

The County has entered into leases for facilities and equipment which provide for specified minimum rental payments. To comply with state statutes, all leases contain a non-appropriations clause which allows the lessee to cancel the lease in the event that resources are not available for future appropriation. The remaining terms of the leases range from approximately one to eight years. Leases which transfer substantially all the benefits and risks incident to the ownership of property have been capitalized. The future minimum rental commitments as of June 30, 2010 for continuing capital leases are as follows:

<u>Year Ended June 30,</u>	<u>Internal Service Funds</u>	<u>Component Units</u>
2011	48,218	166,447
2012	5,000	64,684
2013	0	64,684
2014	0	59,684
2015	<u>0</u>	<u>0</u>
Total minimum lease payments	\$ 53,218	\$ 355,499
Less: Amounts representing interest	<u>(1,781)</u>	<u>(31,528)</u>
Present value of minimum lease payments	<u>\$ 51,437</u>	<u>\$ 323,971</u>
Cost of leased property	\$ 195,925	\$ 955,675
Accumulated depreciation	<u>(53,354)</u>	<u>(387,577)</u>
	<u>\$ 142,571</u>	<u>\$ 568,098</u>

Property under capital lease consists of equipment and facilities. The cost of the leased property is included in the same fund/component unit as the capital lease obligation.

The capital lease obligations payable in future years have been reflected as both proceeds from capital lease and as expenditure in the appropriate fund/component unit in the initial year of the lease.

NOTE 9 - LEASING ARRANGEMENTS (cont.)
AS LESSOR

The County entered into a direct financing lease with the Old Timers Rodeo Association of Fremont County for a building to be used as an indoor rodeo arena. The City of Lander and the County entered into a joint powers agreement and secured a loan in Fremont County's name for \$175,000 from the Farm Loan Board to construct the building. Title to the building is in the County's name and will revert to the Old Timers upon the payment of all fifteen annual lease installments of \$6,000 to the County.

During the year ended June 30, 2004, this lease was refinanced. The County forgave \$69,253 of principal and \$17,300 of accrued interest. Of the total amount forgiven, \$9,118 was recorded as bad debt expense in fiscal 2004, while an allowance had been recorded for the other \$77,435 in the prior year. The interest rate on the lease was lowered from 7.0% to 4.34%. Annual lease installments were lowered from \$13,675 to \$6,000.

The components of the net investment in this direct financing lease are as follows:

Net minimum lease payments receivable	\$ 54,000
Less: unearned income	<u>(10,071)</u>
Net investment in financing leases	<u>\$ 43,929</u>

A schedule of total net minimum lease payments receivable by year is as follows:

<u>June 30,</u>	
2011	6,000
2012	6,000
2013	6,000
2014	6,000
2015	6,000
2016-2019	<u>24,000</u>
	<u>\$ 54,000</u>

NOTE 10 - COMMITMENTS AND CONTINGENCIES

Litigation

Various claims and lawsuits arising in the ordinary course of operations are pending against the County. While the ultimate effect of such litigation cannot be ascertained at this time, in the opinion of the County Attorney, the liabilities which may arise from such action would not result in losses which would materially affect the financial position of the County or the results of operations.

Construction commitments

The County has active construction projects as of June 30, 2010. At year end, the County's commitments with contractors are as follows:

<u>Projects</u>	<u>Spent-to-date</u>	<u>Remaining Commitment</u>
Road Construction:		
Burma Road Phase 1	\$ 141,611	\$ 938,801
Railroad Street Improvements	545	86,405
Other Construction:		
Lander Library	6,458,799	124,000
Lander Ambulance Facility	941,258	31,102
Other Contracts:		
Asphalt Cold Mix	0	301,875
Dubois Roads Survey	7,585	87,176

The commitments are financed as follows: road construction by the Road Construction Special Revenue Fund, the Lander Library by the Library Excess Sales Tax Special Revenue Fund, and other contracts by the General Fund,

NOTE 10 -COMMITMENTS AND CONTINGENCIES (cont.)

Insurance Coverage

The County is a member of the Local Government Self Insurance Pool as authorized by State statute 1-42-101. Coverages of this pool include general liability, automobile liability, and public officials' errors and omissions. Participation by the County is voluntary. Participants may be terminated for failure to pay the required assessments. A joint powers board administers the pool. It is the board's duty to provide legal services for the defense of claims, procure insurance and professional services as required, establish and collect assessments on participating entities as necessary to operate the pool, and establish deductibles. Settled claims have not exceeded the insurance coverage in the past three years.

The County carries property insurance to absorb any losses related to theft or damage to County property. For the fiscal year ended June 30, 2010, the Commissioners appropriated \$182,000 for liability premiums and casualty losses and incurred \$146,548 of actual expenditures for premiums and losses to uninsured property.

No significant reduction in the County's insurance coverage has occurred.

The County offers a self-funded death benefit to employees as a fringe benefit. The maximum death benefit is \$10,000 per employee.

Group Health Insurance

The County has established a self-insured health benefit plan fund (internal service fund). The purpose of this fund is to pay medical, dental and vision claims of the County and other qualifying entities employees and their covered dependents and minimize the total cost of medical benefits. Medical claims exceeding \$75,000 per individual are covered by a stop-loss policy through a private insurance carrier. The County has engaged the services of a plan administrator who, for an administration fee, which approximated \$114,000 for the year ended June 30, 2010, serviced the claims and stop-loss premiums paid. Stop-loss reimbursements received approximated \$329,000, \$301,000, \$219,000 \$44,000, and, \$219,000 for each of the past five years, respectively.

The health insurance fund is funded by monthly contribution payments from the participating groups.

The County estimates claim loss liabilities using historical experience plus any known significant losses. Following is a summary of claim loss liability:

Claim liability at beginning of year	\$ 400,000
Claims incurred during year	4,120,311
Claims paid during year	(4,134,311)
Claim liability at end of year	<u>\$ 386,000</u>

NOTE 11- DETENTION FACILITY TRUST PERMANENT FUND

The Detention Facility Trust Permanent Fund was created when the voters of Fremont County approved a 1% capital facility tax in a special election held on May 5, 1998. The proposition approved by the voters stated in part, "...The remaining \$2,000,000 of collections shall constitute the corpus (principal) of the endowment fund. Any excess collections and unused construction funds shall be added to the corpus (principal) of the endowment fund. The earnings from the endowment fund will be used for the facility's utilities, maintenance, and replacement of building components and equipment." Net appreciation on investments amounting to \$1387,911 is available for authorization for expenditure by the board of County Commissioners. This amount is included in unrestricted net assets. State law does not address the ability to spend the net appreciation. The amount to be spent is established through the County's normal budget process.

**NOTE 12- CLOSURE AND POSTCLOSURE CARE COST -
SOLID WASTE DISPOSAL DISTRICT**

State and federal laws and regulations require the Solid Waste Disposal District (the District) to place a final cover on its landfills when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for 30 years after closure. After five years, the District can petition the State for official closure status. Closure and postclosure care costs will be paid only near or after the date that the landfills stop accepting waste. The estimated liability incurred to date is included as a liability of the District (a component unit) in the government-wide statement of net assets. Closure and postclosure care costs are recognized when incurred. The liability is adjusted each year to reflect costs incurred and changes in estimated remaining capacity. The District estimates closure and postclosure care costs based on original landfill capacity and the estimated capacity used to date.

The landfill closure and postclosure care liability reported is based on the following estimated costs and capacities:

<u>June 30,</u>	<u>Estimated Total Closure and Postclosure Care Costs</u>	<u>Percentage of Total Capacity Filled</u>	<u>Liability</u>
2010	\$ 12,000,000	≈50%	\$ 6,000,000

These costs are based on what it would presently cost to perform all closure and postclosure care. Actual costs may be more or less due to inflation, changes in technology or changes in regulations.

The District estimates the remaining site life and capacity used of each of the County landfills as follows as of June 30, 2010:

	<u>Life</u>	<u>Capacity Filled</u>
Lander – Phases 2 -5	13.0 years	48%
Riverton - Sand Draw	26.0 years	44%
Shoshoni	59.0 years	67%
Dubois	1.8 years	100%

State and federal laws require the District to provide financial assurance that the closure and postclosure care requirements will be met. The District participates in a guarantee program administered by the State of Wyoming. Participation in this program satisfies the financial assurance requirements. The effective date of compliance with these requirements was April 9, 1997. Annual contributions amounted to \$400 for the year ended June 30, 2010.

During the year ended June 30, 2010, the District operated the Lander and Riverton (Sand Draw) and Dubois landfills without permits. These sites are required to be re-permitted by the Wyoming Department of Environmental Quality (WDEQ) every four years. Outstanding issues prevented re-permitting these sites on the normal four year cycle. WDEQ issued a notice of violation for the Lander and Riverton (Sand Draw) and Dubois landfills. The District negotiated a settlement for the Lander and Riverton (Sand Draw) and Dubois landfills..

The Lander landfill site has several potential environmental issues that have not yet been thoroughly explored and resolved. Due to the complex geology of the site, the District and the Wyoming Department of Environmental Quality (WDEQ) are developing drilling and monitoring programs to help determine the nature and extent of any contamination. If high levels of contamination are revealed, the potential exists for the closure and post-closure care costs at this site to increase dramatically.

The WDEQ has expressed concerns about the continued operation of the Lander landfill and has mandated that the landfill cease receipt of all waste by August 1, 2024, and perform closure activities at that time.

**NOTE 12- CLOSURE AND POSTCLOSURE CARE COST -
SOLID WASTE DISPOSAL DISTRICT (cont.)**

The District has closed six sites. The State of Wyoming has assumed control over three small landfills within Fremont County (Atlantic City, Jeffrey City and Lysite), releasing the District of post closure responsibilities and decreasing the amount of liability recognized by the District.

There are outstanding issues on the remaining three closed sites (Hudson, Pavillion and Missouri Valley). Annual inspections have revealed problems that must be addressed before the District can petition the State for final closure. The State requires five consecutive annual inspections without incident before the petition for release can be accepted.

NOTE 13- CHANGE IN ACCOUNTING PRINCIPLES

The County has changed its manner of accounting for certain intangible assets that do not have indefinite useful lives. The City has adopted the requirements of GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*, for rights of way acquired in prior years. This change is reported as a cumulative effect of a change in accounting principle in the amount of \$831,330 and is reflected as a restatement of beginning net assets invested in capital assets and an increase in capital assets in the governmental-type activities of the government-wide financial statements.

NOTE 14- PRIOR PERIOD ADJUSTMENT

The net assets beginning of year for governmental activities and beginning capital asset have been increased by \$342,560 to include donated infrastructure assets received in a prior year but not included in the financial statements in the year received.

Amounts reported for the Solid Waste Disposal District in the statement of activities (pages 13-14) are different because:

Net change in fund balance (page 69)	\$	876,564
statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$407,576) exceeded capital outlay (\$845,062) in the current period.		437,486
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fund financial statements.		45,476
Expenses reported in the statement of activities that do not use current financial resources are not reported as expenditures in the funds. Following are net decreases (increases) in:		
Compensated absences.		4,830
Landfill closure costs		(3,316,141)
The issuance of long-term debt (including capital leases) provides current financial resources to governmental funds, while the repayment of long-term debt consumes the current financial resources of governmental funds. However, this has no effect on net assets. This amount is the net effect of these differences in the treatment of long-term debt.		210,111
Change in net assets of Solid Waste Disposal District (page 14)	\$	(1,741,674)

Amounts reported for non-major component units in the statement of activities (page 72) are different because:		
Net change in fund balances (from above)	630,417	382,401
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the excess of capital outlay over (under) depreciation during the current period.	(119,515)	(11,831)
The net effect of various transactions involving capital assets (i.e. sales, trade-ins and donations) is to decrease net assets. These transactions are not reflected in governmental funds.	0	501
Governmental funds report loan proceeds as other financing sources, expenditures. However, only the interest payment is included on the statement of activities. Following is the amount by which loan proceeds exceed principal payments.	0	5,000
Revenues reported in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	6,000	4,647
Expenses reported in the statement of activities that do not use current financial resources are not reported as expenditures in the funds. Following are net decreases (increases) in compensated absences.	<u>(8,383)</u>	<u>4,000</u>

COMPLIANCE SECTION

Honorable Board of County Commissioners
Fremont County, Wyoming
Lander, Wyoming

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Fremont County, Wyoming as of and for the year ended June 30, 2010, which collectively comprise Fremont County, Wyoming's basic financial statements and have issued our report thereon dated January 11, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of Fremont County Solid Waste Control District, as described in our report on Fremont County, Wyoming's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Fremont County, Wyoming's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Fremont County, Wyoming's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Fremont County, Wyoming's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting. This item is identified as 10-1. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Fremont County, Wyoming's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Fremont County, Wyoming's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit Fremont County, Wyoming's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the audit committee, County Commissioners, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Leo Riley & Co.

January 11, 2011

Honorable Board of County Commissioners
Fremont County, Wyoming
Lander, Wyoming

REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND
ON INTERNAL CONTROL OVER COMPLIANCE IN
ACCORDANCE WITH OMB CIRCULAR A-133

Compliance

We have audited the compliance of Fremont County, Wyoming with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2010. Fremont County, Wyoming's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Fremont County, Wyoming's management. Our responsibility is to express an opinion on Fremont County, Wyoming's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Fremont County, Wyoming's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Fremont County, Wyoming's compliance with those requirements.

In our opinion Fremont County, Wyoming complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of Fremont County, Wyoming is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Fremont County, Wyoming's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirements of a federal program will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses. We did not identified any deficiencies in internal control over compliance that we consider to be material weaknesses as defined above.

This report is intended solely for the information and use of the management, audit committee, County Commissioners, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

NOTES TO SCHEDULE OF FEDERAL AWARDS

NOTE 1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Fremont County, Wyoming, and is prepared on the accrual basis of accounting. The information in this schedule is presented in accordance with the provisions of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

FREMONT COUNTY, WYOMING
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
JUNE 30, 2010

SUMMARY OF AUDIT RESULTS

1. The auditor's report expresses an unqualified opinion on the financial statements of Fremont County, Wyoming.
2. One significant deficiency disclosed during the audit of the financial statements and is reported in the Schedule of Findings and Questioned Costs. This deficiency is not reported as material weakness.
3. No instances of noncompliance material to the financial statements of Fremont County, Wyoming were disclosed during the audit.
4. No significant deficiencies or material weaknesses are disclosed during the audit of the major federal award programs.
5. The auditors' report on compliance for the major federal award programs for Fremont County, Wyoming expresses an unqualified opinion on all major federal programs.
6. Audit findings relative to the major federal award programs for Fremont County, Wyoming are reported in this Schedule.
7. The program tested as major program was U.S. Department of Agriculture - Schools and Roads - Grants to Counties Forest Reserve (CFDA 10.666).
8. The threshold for distinguishing Types A and B programs was \$300,000.
9. Fremont County, Wyoming was determined to be a low-risk auditee.

FINDINGS - FINANCIAL STATEMENTS AUDIT

SIGNIFICANT DEFICIENCIES

10-1 Trust and Agency Funds - Inmate Trust Account

Criteria: The County has created an inmate trust account and commissary account for which inmate funds are held and accounted for in a trustee relationship and also incorporated into this as a commissary account for which inmates may purchase supplies and incidentals.

Condition: During the course of our audit, it came to our attention that these inmate trust funds had become depleted due to bookkeeping error and had been remitted to the County General Fund.

Cause: The condition was caused by the trust fund remitting gross proceeds of commissary sales to the County General Fund rather than the net amount of the products sold. The remitting of the total sales price rather than the amount of the mark up on phone cards depleted the inmate funds in the same bank account. The situation occurred due to a change in supplier and payment procedures without adequate understanding of the accounting system.

Recommendation: The County General Fund will restore the excess profits that it received back to the inmate trust account. The account should be monitored by staff to ensure that the trust funds balance never is less than inmate balances held.

FREMONT COUNTY, WYOMING
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
JUNE 30, 2010

FINDINGS - FINANCIAL STATEMENTS AUDIT (Continued)

10-1 Trust and Agency Funds - Inmate Trust Account (Continued)

Management response: Upon learning of the overdrafts in the Inmate Trust checking account, County Treasurer staff met with Detention Center staff. They determined the cause of the overdraft. The County Treasurer immediately (July 26, 2010) deposited \$10,000 of County funds in the Inmate Trust checking account to avoid further overdraft charges. The Detention Center administrator was instructed to pay all future phone card purchases by voucher and warrant through the County Clerk unless they chose to follow the original procedure.

On October 5, 2010, a \$38,976 warrant was issued to reimburse the Inmate Trust checking account for the cost of the phone cards. Finally, the \$10,000 of County funds was returned on December 6, 2010.

County Treasurer staff have made themselves available to assist with or review bank reconciliations on a monthly basis.

FINDINGS - MAJOR FEDERAL AWARDS PROGRAMS AUDIT

U.S. DEPARTMENT OF AGRICULTURE (CFDA 10.666)

None

FREMONT COUNTY, WYOMING
STATUS OF PRIOR YEAR FINDINGS

FINDINGS - FINANCIAL STATEMENTS AUDIT

09-1 Cash Collections

The County Fair Board has designed and implemented control procedures that will allow the employees to perform counts of ticket sales and reconcile these counts to the total revenue reported in the financial statements.

FINDINGS - MAJOR FEDERAL AWARDS PROGRAMS AUDIT

U.S. DEPARTMENT OF AGRICULTURE (CFDA 10.666)

09-2 Procurement, Suspension and Debarment

Controls have been established to identify costs charged specifically to the award and those expenditures that exceed the required threshold will be verified as to their eligibility to be awarded contracts of federal funds.
