S-1 BUDGET MESSAGE W.S. 16-4-104(d)

PACD's budget provides for four full-time staff members to carry out the natural resource conservation priorities and projects determined by the Board of Supervisors. The budget also provides for the administrative tasks, building maintenance, and vehicle expenses. This fiscal year's budget obligates resources to conduct targeted water quality monitoring and implementation of Best Management Practices on the Middle Fork of the Popo Agie to reduce E.coli contributions to the river. The District continues to manage a Rangeland Health Assessment Project for the Granite Mountain Open Grazing Allotment. The seedling tree program allows us an opportunity to provide reasonably priced seedling trees to our community. We've budgeted significant funds to Resource Conservation Projects to include: a cost-share incentive program for landowners who can't typically qualify for federal farm bill programs, to implement natural resources conservation practices that address soil erosion, water quality and quantity, energy conservation or wildlife habitat; the Community Enhancement Program provides incentive for residents and businesses within the PACD boundaries to implement resource conservation practices that provide public benefit for our local community; rural well water testing incentive program assists our rural landowners to deliver quality drinking water; an aspen regeneration project on south pass to benefit the watershed; continued planning with partners to improve the health of the M.F. Popo Agie; Emergency Conservation funds are budgeted to provide assistance for natural resource disasters that may interrupt the conservation of our soil and water resources; the Small Water Project Program provides us an opportunity to partner with Wyoming Water Development Commission to provide incentives for improving watershed condition and function; Irrigation Water Management Program provides cost-share opportunities to ditch groups/companies to improve their irrigation water delivery systems. PACD has partnered with USFWS to implement a variety of habitat improvement projects, from stream restoration to rangeland improvements for sage grouse core areas. Changes from FY15-16 to FY16-17 include anticipating a 27% decrease in mill levy. Revenues lumped into incorrect categories changed WVNRT to state funds from FY15-16 budget. Administration, operations and total expenditures, office equipment, Resource Conservation Program budgets will decrease due to the expected financial shortfall. Seedling tree sales are anticipated to increase this year due to a potential wind break project. Grant funds will expire this year for the Rangeland Health Assessment Project for the Granite Mountain Open Grazing Allotment. In addition to increased grant funds, new grant opportunities have increased the program services budget as projected for this upcoming fiscal year.
